IT INFRASTRUCTURE & CLOUD SUPPORT

Azure | Linux | Networking | Terraform | Git | Azure DevOps | Docker

PROFESSIONAL

B. Tech graduate transitioning into IT Infrastructure and Cloud Support with hands-on project experience in Microsoft Azure, Linux, networking, Terraform, Git/GitHub, GitHub Actions and Docker. Built and troubleshoot Azure infrastructure including Virtual Machines, VNets, subnets, Network Security Groups, RBAC and monitoring through hands-on projects and training. Brings 2+ years of professional experience in stakeholder communication, coordination, documentation, reporting and issue follow-up. Seeking entry-level IT Support, Technical Support, Infrastructure Support, Cloud Support or Azure Support opportunities.

TECHNICAL SKILLS

Cloud & Azure: Microsoft Azure, Azure Virtual Machines, Virtual Networks, Subnets, Network Security Groups (NSG), Storage Accounts, Azure Monitor, Log Analytics, RBAC, Microsoft Entra ID

Infrastructure & Networking: Linux (Ubuntu), TCP/IP, DNS, SSH, IP addressing, basic subnetting, network troubleshooting, connectivity troubleshooting

IaC & DevOps: Terraform, Infrastructure as Code (IaC), Terraform variables, outputs, modules, state management, Git, GitHub, GitHub Actions, CI/CD, YAML

Tools: Azure CLI, PowerShell (Basic), Docker (Basic), GitHub

Support: Technical Troubleshooting, Incident/Issue Follow-up, Monitoring, Documentation, Stakeholder Communication

PROFESSIONAL EXPERIENCE

SKILLIT Academy | Hyderabad | Skill Development Engineer | Mar 2025 - Aug 2025

- Guided learners and professionals through technology skill-development programs and coordinated training workflows.
- Coordinated learner onboarding, batch schedules, technical mentor communication and follow-up activities across multiple programs.
- Tracked 20+ technical training batches, maintained documentation and reports, and followed up on learner or delivery issues.
- Analyzed feedback and communicated recurring issues to relevant stakeholders to support smoother program delivery.
- Developed hands-on technical skills in Azure, Linux, Terraform, Git/GitHub, Azure DevOps and Docker through structured training and independent projects.

CAREERPEDIA | Hyderabad | Business Development Associate | Jan 2024 - Dec 2024

- Communicated with learners and prospective candidates, understood requirements and guided them through program options and onboarding.
- Managed follow-ups, documentation and CRM-based activity tracking using Excel and CRM workflows.
- Coordinated with internal teams to support candidate onboarding, issue resolution and timely communication.
- Built strong stakeholder communication, requirement-understanding and problem-solving skills through continuous customer engagement.

PROJECTS

Azure Cloud Infrastructure Deployment using Terraform

Provisioned Azure resource groups, Virtual Networks, subnets, Network Security Groups and Linux Virtual Machines using Terraform.

Configured Terraform variables, outputs, modules and state-management practices for repeatable infrastructure deployment.

Used Git/GitHub and GitHub Actions with YAML workflows to automate infrastructure deployment activities.

Practiced Azure Monitor and Log Analytics for infrastructure monitoring and basic incident investigation.

Troubleshoot simulated VM access, SSH connectivity, networking, permissions and Terraform state issues in hands-on lab environments.

Node.js Deployment Project

Deployed a Node.js application in a Linux environment using Git/GitHub and a process-management workflow.

Worked with application ports, process status, logs and deployment troubleshooting from source code to running application.

EDUCATION

Bachelor of Technology (Mechanical Engineering) | Lakkireddy Balireddy College of Engineering | 2023 | CGPA: 7.82

TRAINING

Azure Cloud | Terraform | Azure DevOps | Linux | Git/GitHub | Docker Basics
